How Bark's Content Monitoring Works

CONNECT
Connect your child's devices and accounts to monitor their online activity for signs of harmful interactions and content. **The charts below show which Bark apps monitor which platform.**

DETECT
Bark runs quietly in the background, searching for issues that might indicate something is wrong in your child's online world.

ALERT
Get email, text, and push notifications alerts when Bark detects worrisome content.

BLOCK
With Screen Time and Blocking, parents can manage when their kids can access the internet on their devices and which sites and apps they can visit.

Device-Level Monitoring	Android	Apple
Screen Time / Block Apps	Bark Kids App	Bark Kids App
Text/Photos/Videos	Bark Kids App	Desktop App
Social Media Direct Messages	Some w/ Bark Kids App	2 Platforms w/ Desktop App
Block access to apps, websites, and the Internet	Bark Kids App	Bark Kids App
